Warsaw Area Career Center has been involved with the PLTW Biomedical Science Program since 2007.

*Rose Love teaches PBS and BI. She encourages us to look beyond what we know and develop our knowledge in science by making us think for ourselves. The labs are fun and I have learned a lot from them. This class is the highlight of my day.

*Terry Aukeman teaches HBS and MI. He has an excellent track record at preparing his students for our ECA. He is able to do this by writing challenging tests and by covering all of the course material. He is very helpful and willing to explain concepts to us individually.

“*You’ll be happy to hear that I think that Warsaw did a good job preparing me for college academics, as I’m doing extremely well in all of my classes.”
- Erika Jansen, Furman University

Community Link:
Warsaw Area Career Center PLTW Biomedical Science Program is partnered with the following companies:

Symmetry Medical
Paragon Medical
Biomet
DePuy
Zimmer
Pillbox Pharmacy
Goshen Heart and Vascular Hospital
Fort Wayne Parkview North Hospital
Other Local Biomedical Professionals

Service Projects:
The 2014/2015 Biomedical Innovation class raised $400 and helped pack 59 boxes of meals for ‘Feed My Starving Children’.

You are Amazing…

“*I was impressed by the “real world” education that you are helping to provide. The BI presentations were amazing. Your students were critical thinkers! Thank you for all that you do to help guide them.”
- David Hoffert, Superintendent of WCS

PBS – Sheep Heart Dissection
HBS -Human Physiology
Experimental Design
MI – Gel Electrophoresis
BI – Human Physiology
Experiment Gallery Walk
